The best things about this unit are:

- Interesting, lecture quality, the course is good, course subjects and fun and enjoying the delivery.

- Programs/Software used VMWare/EnCase/FTK. – Real life examples.

The things you would most like improved on this unit are:

- **Not all resources are available (EnCase Software):** Response: Our techs are working on EnCase.
- **Number of students mentioned Pen Testing/attacks.** Response: This is will be covered later; this is forensics part.
- **More programming.** Response: Yes, there will be a lot more programming in Python.
- **There are too much information to learn and process.** Response: I agree, and promoted as good value for money and it is MSc degree!
- **More explanations on exam topics.** Response: There will be more revisions sessions.
