

Assignment Help Tasks:

This task will use EnCase Demo 6.13 and HunterXP.E01 evidence file located on the shared drive.

You are a digital forensics investigator and you have been given the suspect evidence file to investigate it. The criminal involved is called Bob Hunter. He is a suspect of black-mailing.

Answer the following questions based on your investigation of the evidence file:

- 1) What is the file system type on the disk?
- 2) What is the operating system Bob used?
- 3) How many personal user accounts on the system?
- 4) What is the email address Bob used in order to email his victims?
- 5) What is/are the email/s of the Bob partner in the crime?

Continue the investigation on your own time and submit your assignment before the deadline.

Best Wishes
